### IN THE CRIMINAL COURT FOR HAMBLEN COUNTY, TENNESSEE

### ORDER ESTABLISHING WORK RELEASE COMMISSION

In order to alleviate the volume of work required of the Court and to establish a uniform, consistent and fair method of determining work release allowed by law for prisoners in the County Detention Center or Jail the following provisions are made:

- There is established a work release commission consisting of: (1) Jail Administrative Assistant Teresa Laws, Constable Tom McKinney & Circuit Sessions Court Clerk Teresa West;
- The work release commission will, by concurrence of all three members, (2)review all applications of inmates of the County Detention Center or Jail and grant or deny work release;
- An affidavit of the prospective employer must be filed with the work release (3) application. The Hamblen County Sheriff's Department has drafted the affidavit form and the form must be used. The employer must be of good reputation and the employment must be actual work and not a means of evading incarceration;
- No person can be granted work release that has presently been convicted of a (4) felony;
- No person can be granted work release that is currently on the Sex Offender (5)Registry;
- Any prisoner granted work release must pay all fees and cost as required by (6) law:
- The commission will cause work releases granted to be periodically checked (7)for full compliance. Anyone not in compliance will be terminated unless the commission finds good cause for reinstatement.

Honorable Bill Brittain, Mayor Hamblen County 511 West Second North Street Morristown, TN 37814

Dear Mayor Brittain:

This letter acknowledges receipt of your letter dated July 22, 2016, requesting a meeting with our Office to answer the following two questions concerning the County's debt.

- 1. Is it permissible to refinance debt if we believe it is in the best financial interests of the County?
- 2. Is it wise debt management to refinance debt to lower payments to create debt capacity to service new debt and minimize the need for additional revenue for debt service?

In response to your first question, the County is allowed by statute to refinance general obligation debt (T.C.A. § 9-21-901). Prior to the adoption of the resolution authorizing the issuance of general obligation refunding bonds, the County is required to submit a plan of refunding to our Office (T.C.A. § 9-21-903). In accordance with directives from our Office, the plan must identify the purpose of the refunding, including, but not limited to, cost savings, restructuring, or elimination of variable interest rate risk.

In response to your second question, we recommend that the County seek advice from a professional municipal advisor and/or CTAS. A professional municipal advisor and/or CTAS would be able to present the different financing options available based upon the County's debt management policy and its current and future debt capacity as County Officials plan for the future financing of its capital projects. The Mayor and County Commissioners have a fiduciary responsibility to choose the option that they believe is in best interest of the citizens they serve.

We would like to point out that the two bond issues the County contemplates refinancing were originally issued as balloon debt with the majority of the principal maturing in the later years in each of the 20- and 25-year structures. The County has not made a material principal payment in almost two decades on either of these issues. If the County extended the maturity of this debt, it Letter to Hamblen County July 26, 2016 Page 2

would increase the interest rate costs the County currently pays as well as delay the repayment of this debt to a future generation.

In closing, we would like to clarify that our Office does not have statutory authority to provide financial advice to local governments. Our statutory role specifically related to debt refinancing (or refunding) transactions by county governments is limited to the review of proposed plans of refunding and the issuance of a report on the proposed plans (T.C.A. § 9-21-903). The purpose of the issuance of a refunding report is to provide transparency in order to ensure governing bodies make well-informed decisions.

If a proposed issuance of refunding bonds is classified as balloon indebtedness, then a request needs to be submitted to our office for a report on a plan of refunding along with a separate request for approval of balloon indebtedness (T.C.A. § 9-21-134).

If the County needs assistance in determining if a particular structure is balloon indebtedness, or needs information on how to present a refunding plan, please let us know.

Thank you for contacting our office with your questions. If you should have any additional questions or need further assistance, please feel free to call us.

Sincerely,

Sandra Thompson

The Archives Department of Hamblen County Government:

- Keep consistent equipment in Archives for benefit of Patron use, training and maintenance service.
- The advantage of the ScanPro representative to come ONSITE for Services including Installation, Training and Maintenance on the same day or next day upon call.
- The ScanPro 3000 is the choice unit for the Tennessee State Library and Archives. They
  have 13 of these units and they highly recommend them. Several other Tennessee County

### Conflict of Interest Statement #1

### Rick Eldridge read before vote on Tax Levy Resolution

The Attorney General of Tennessee has previously opined that members of a county legislative body may vote on a budget which includes retirement and insurance benefits for themselves as members of that body because Tennessee Code Annotated 5-5-107 (a) authorizes county legislative bodies to fix the compensation of their membership. For purposes of the Hamblen County Code of Ethics adopted by this Body on April 19, 2007. I hereby acknowledge this apparent conflict of interest; however, I declare that my vote answer only to my conscience and to my obligation to my constituents and the citizens this Body represents.

Re:

Vehicle exchange with East Hamblen County Volunteer Fire Department

I am requesting the approval of the exchange of vehicles between Hamblen County Government and East Hamblen County Volunteer Fire Department.

If approved, Hamblen County will give East Hamblen County Volunteer Fire Department a Ford Explorer 4x4 from the Sheriff's Department that has been declared surplus property.

In exchange East Hamblen County Volunteer Fire Department will give Hamblen County a 1994 Chevrolet Caprice that the County will sell with the proceeds going to the General Fund.

I also ask that once the ownership of the 1994 Chevrolet Caprice is transferred to Hamblen County that it be designated surplus property so we can expedite its sale.

Joint M-H Economic & Community Development Board

Accompanying this letter are the August minutes of the Joint Morristown-Hamblen Economic & Community Development Board that was discussed during the FY 2016-17 budget process.

The Board also met today and adopted a budget for FY 2016-17. It is attached. The \$96,000 budget for industrial marketing is used to pay expenses associated with many types of communication with industrial and commercial prospects and existing businesses. The activities include but are not limited to website development and maintenance, media marketing, travel, and entertainment/gifts for prospects.

The annual Industrial Appreciation Breakfast is scheduled for October 6, 2016 at 7:30 a.m. at First Presbyterian Church. The breakfast is a time when the community shows its appreciation for the jobs and economic activity our industrial and businesses partners provide for our region.

#### Reports

<u>City of Morristown</u> – Mayor Chesney reported that the City of Morristown is financially healthy. The City Council recently raised property taxes 9 cents to fund the paving program and many projects have already been completed or are currently underway. Council members are continuing to focus attention on clean-up and beautification throughout the city limits. Their annual planning retreat is coming up this weekend. And lastly, City Council is pursuing condemnation proceedings in court of the Morristown College site.

Hamblen County – Rick Eldridge reported that the County Commission will again meet August 8 to consider a budget. Currently 4 miles of paving are in the budget. They have also hired an architect for the jail project. Due to recent drug round-ups, the jail population reached over 400 people. Bill Brittain then reported that the internship presentations wrapped up last week under the Workforce Development initiative. Also, the application for the second round of LEAP grants is underway. LEAP 2.0 would add Sevier, Greene and Cocke counties to the program and includes 50 intern positions. Three counties have already adopted the work ethic diploma criteria but there needs to be better marketing of the program to the high school students. And lastly, the county was awarded a \$7,000 tourism grant to make improvements at Hamblen County Boat Dock. The local match for this grant is \$3,000.

Morristown Utility Systems – Marshall Ramsey reported for Jody Wigington. Morristown Utilities is moving forward to build a sewer line from Exit 8 to the Lowland Waste Treatment facility near Exit 12. While there is an order from the state, it is a very cooperative agreement between MUS and TDEC. Also, the MUS Board will be considering a LED lighting upgrade project for the downtown area.

<u>Chamber of Commerce</u> – Marshall began his report by presenting updated industrial park maps that TVA helped put together. He then asked James Craine to give a transportation update.

11E four-lane project – A Public Notice was published several weeks ago for the right-of-way acquisition

MAID access improvements – The signal light at the intersection of Commerce Blvd. and 11E/W. Andrew Johnson Hwy. is slated for Summer 2017, with the j-hook improvements on Hwy. 160 at Commerce Blvd. following.

Hwy. 66 – Projected completion of this project is 2017. There are still some questions about a proposed signal at Alpha Valley Home Rd.

Marshall then reported on current prospect activity:

<u>Project Forward</u> – This prospect is looking at an existing building in the *East Tennessee Valley Industrial District*. At the prospect's request, the IDB is currently working on the state brownfield program for the property. The state has indicated they want the deal completed by the end of the month.

<u>Project Orbit</u> – This project has now purchased a building in the *East Tennessee Valley Industrial District* and expects to create 25 new jobs. They hope to make an announcement before the end of the summer.

Other Business

Marshall explained that this group has been operating under an old interlocal agreement that did not include the County Commission Chairman, as the very first interlocal agreement stated. By law this board only has to include the following: the county mayor, mayor or city manager of each city lying within the county, and one person who owns land considered to be greenbelt. Marshall asked the group to consider changing the membership to the following:

Mayor, Hamblen County

Chair, Hamblen County Commission

Mayor, City of Morristown

Administrator, City of Morristown

Chair, Industrial Development Board

Vice-chair, Industrial Development Board

President, Morristown Area Chamber of Commerce

Greenbelt property owner – to be selected by the members of the Board

Marshall then pointed out that this group has never formally adopted a budget. This was in part due to the fact that there was already an agreement in place to fund economic development activities. However, he suggested to the group that this would be a good time to ask the City Council and County Commission to fund economic development activities through this board. This board will request the City of Morristown to fund \$56,000.00 and Hamblen County to fund \$42,000.00.

Upon motion by Gary Chesney, second by Bill Brittain, the Joint Morristown-Hamblen Economic & Community Development Board does hereby approve of these changes.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Marshall Ramsey

Re: Important Information about Customer TV Boxes and Modem

Dear Mayor Brittain:

As part of our continuing effort to keep you informed, I wanted to let you know about an upcoming change affecting certain Comcast TV boxes and modems. Beginning August 24, 2016, a limited number of customers in your community will be asked to upgrade their equipment to take advantage of our new technology enhancements. With this upgrade, customers will enjoy improved HD picture quality and be able to record and store more shows on their DVR.

To continue to view all of their current favorite HD channels, some customers will need to upgrade their cable boxes no later than November 9. We have established a customer-friendly process for our customers to upgrade their equipment. They simply need to call 1.800.XFINITY (934.6489) and mention "Equipment Update" to schedule a free professional installation, or tune to channel 1995 on each TV connected to their account and follow the simple instructions on the screen, and we'll send them everything they will need to get set up.

While we recognize this change may be an initial inconvenience to customers, this change will pave the way for more HD options and the fastest in-home WiFi.

We are informing our customers of this upcoming change through letters to their homes and email notifications. A sample notification letter is enclosed for your reference. We will continue to notify customers on an ongoing basis about this change, including any deadlines for action, and will keep you informed as well.

Please let me know if you have any questions.

Sincerely,

Amy K. Averill

Director, External Affairs

# UpdateyourTVbox-onus.

Dear Sam Sample,

We've noticed you have an older TV box and we'd like to give you a new one — on us.

You'll need the latest technology to enjoy enhanced HD. Older devices like yours can't keep up with new features and will lose HD channels.

That's why we've made it easy to update equipment so you can enjoy the best TV experience possible. Here's how:

- 1> Tune to channel 1995 on each TV in your home.
- **2>** Follow the simple instructions on the screen to order your replacement.
- 3> Set up and activate your new equipment.

Questions? Find answers at x finity.com/tradeup or call 1-800-XFINITY (934-6489) and mention "Equipment Update."

Thank you for choosing XFINITY. Ensuring that you get the most from your TV service is part of our commitment to improving your overall experience.

Sincerely,

Douglas Guthrie Regional Senior Vice President

Your TV box must be installed by 11/9/2016 to keep your favorite HD channels.

## **Frequently Asked Questions**

#### 1> Do I really need to replace my TV box(es)?

Yes. To provide you with better TV service, we have upgraded our network. As a result, one or more of your devices needs to be replaced to keep up with today's latest technology. For those of you with a DVR, saved recordings will not transfer and recordings for future programs will need to be reset on the new TV box.

#### 2> I have more than one TV box — how do I know which one(s) needs to be replaced?

Simply tune to channel 1995 on each of your TVs and follow the on-screen instructions. It will let you know if your TV box is compatible with the upcoming changes or needs to be replaced.

- 3> How do I replace the box(es)? You can choose one of these three options to get your new device:
  - On your TV: Go to channel 1995 and follow the on-screen instructions to get a new TV box shipped to your home.
  - Call us at 1-800-XFINITY: Place an order, ask questions or schedule a professional installation for an additional fee.
- 4> How do I return my existing TV box(es)? There are three options to return your box:
  - By mail: Use the return label in your self-installation kit.
  - By appointment: If your new TV box is professionally installed, your technician will take your existing equipment.

1400-1-.04 Physical Plant:

Deficiencies Found: Yes X No

(1) The male and female inmate housing areas in the jail have very poor lighting and poor ventilation, which appears to be causing a continuous mold/mildew problem, as well as, making it difficult to control the temperature.

- (3) Male and Female cell areas are not in compliance with required square footage due to overcrowding.
- (6) Male and Female cell areas are not in compliance with toilet and sink ratios due to overcrowding.
- (7) Male and Female cell areas are not in compliance with shower ratio due to overcrowding.
- (23) Facility does not have enough cells to accommodate the facility's classification plan. Male and female inmates are not separated by sight, sound, and physical contact. Minimum, Medium, and Maximum security inmates are not able to be separated. Male and female inmates were being housed in the hall in front of the booking area along with a male inmate being shackled to the restraint chair and several males were shackled to benches. Male and female inmates are allowed to intermingle unimpeded within the previously noted area. Female trustee workers were roaming around the facility without the supervision of a Correctional Officer, including the areas around the male inmates.

#### Additional Comments:

Note: All cell areas in the original inmate housing areas have lighting that can only be controlled and turned on by the inmates in the cell areas. Officers have to enter areas with very little lighting and have the inmates turn on their lights in the cells to be able to see. This is only compounded by the fact that there are inmates that have to be housed in the hall areas, shower areas, and under another inmates bunk on the floor due to overcrowding. This creates serious safety and security issues for the inmates, correctional staff, and community.

Note: The facility's emergency generator is checked weekly by Maintenance Department. The emergency generator is checked yearly by Cummins Crosspoint, LLC with a last service date of August 6, 2015.

#### 1400-1-.05 Administration/Management:

Deficiencies Found: Yes X No

- (2) The facility's Policy and Procedure Manual is being revised to include the 2015 standards revisions and prior missing standards. The policy and procedures have not been signed or approved by the Sheriff.
- (4) The facility has not completed a Fire Drill within the second quarter.
- (6) The facility does not have evacuation plans posted within the cell areas. The contractor or local fire inspector has not reviewed or approved the facility's evacuation plans.
- (8) The facility does not have a preventive maintenance plan.
- (10) The facility does not have an inmate grievance procedure with one level of appeal.

#### Additional Comments:

Note: Lake Way Sprinkler services the Sprinkler System with last service date of February 17, 2016.

### 10.0 LONGEVITY PAY

Eligible Hamblen County Sheriff's Department employees are entitled to receive longevity pay. To be eligible to receive longevity pay, an employee must meet the following requirements:

- Occupy a full-time position with the Hamblen County Sheriff's Department (i.e., be regularly scheduled to work a minimum of 40 hours per week);
- Have accrued at least three years of full-time employment with Hamblen County Government
- Apply and be approved for the longevity payment by the County Commission's Personnel Committee

Temporary, casual or part-time employee's and department heads and elected officials whose minimum salaries are set by the state legislature are <u>ineligible</u> for receipt of longevity pay. If employee transfers from Sheriff's Department to another department within Hamblen County Government, he/she will lose longevity pay eligibility.

For a sheriff's department employee to receive longevity pay, he/she must be a full-time employee who has completed three full years of service with Hamblen County Government. Time spent working in a part-time position is <u>not</u> included in the eligibility calculation for longevity pay.

Sheriff's Department employees must complete an application (available from the Human Resources Manager) to qualify for longevity pay. The application will be reviewed by the County Commission's Personnel Committee which will either approve or deny the application. Employees should allow 30 days for their applications to be processed.

Employees who qualify for longevity pay will receive \$75.00 per year of service not to exceed \$2,250. The longevity pay will be paid annually with the last pay check of the employee's anniversary month. Longevity pay will be administered as a lump sum payment with the applicable payroll taxes and retirement contribution deducted and will not become part of the employee's base pay.

Longevity pay will not be included on a pro-rata basis when end of employment or termination pay is calculated.

#### 9.0 EDUCATION COMPONENT

It is the policy of Hamblen County Government to provide employees with a compensation program that fairly compensates employees for the jobs and responsibilities that they hold, establishes compensation equity within the organization and is competitive within the labor market.

The Hamblen County Commission added an education component to the pay plan effective with the 2016-17 fiscal year. The education component provides employees who have successfully completed a post-secondary degree or certificate program with a pay increase based on the degree earned. All employees of Hamblen County Government are encouraged to apply.

Temporary, casual or part-time employees, and department heads and elected officials whose minimum salaries are set by the state legislature are <u>ineligible</u> for receipt of Education Component.

#### INITIAL IMPLEMENTATION

Employees who hold post-secondary degrees or certificates must complete an application (available from the Human Resources Manager) for the education incentive and provide proof that he/she has earned the degree/certificate. Documented proof of the degree/certificate includes a photo copy of the original diploma or certificate or a certified copy of the official transcript from the education institution. An official transcript is one that has been received directly from the school. It must bear the college seal, date of completion and the Registrar's signature. Master's degrees qualify for the education incentive when they are related to the position the employee holds.

The application must be submitted to the Human Resource Manager for review by the County Commission's Personnel Committee which will approve or deny the application.

Education incentive amounts are <u>not</u> one time, lump sum payments. Rather, the increase is added to the base pay hourly rate and included in the calculation of any COLA employees may receive in subsequent years. Employees should allow 30 days for their applications to be processed. The education increase is effective the pay period immediately following the approval of the application

On an annual basis, the increases are as follows:

Certified Public Administrator (CTAS, COCTP)	\$200.00
Associate's Degree/CTE Certificates	\$350.00
Bachelor's Degree	\$850.00
Master's Degree	\$1600.00

Employees can qualify for one increase based on the highest level of education achieved. For example, if an employee has an Associate's degree and a Bachelor's degree, that employee would qualify for the increase for the Bachelor's degree. Multiple degrees and/or certificates do not qualify employees for multiple increases.

### **CONTINUUM OF PROGRAM**

Employees can qualify for an education incentive if they increase their education attainment while employed with Hamblen County Government. For example, if an employee was hired without a qualifying post-secondary degree/certificate, but earns the degree/certificate during his/her employment, the employee can apply for and be awarded the education increase. Also, if an employee has achieved a qualifying level of education and while employed with Hamblen County Government earns a higher degree, he/she can receive an increase reflecting the higher degree. An example is: an employee holds an Associate's Degree and while employed with Hamblen County earns a Bachelor's Degree, he/she will receive a \$500 increase to his/her base pay.

For newly hired employees, department heads should <u>not</u> include the education attainment amount with the starting pay for the new employees. The education component can be added and become effective the pay period immediately following the completion of the new employees' probationary periods if the applications are approved by the County Commission's Personnel Committee.

### **MILITARY SERVICE**

County employees who have active military service can qualify for a military service increase. Time with reserves does not qualify for the program. Employees with active military service can submit an application with documentation (discharge papers) proving their years of service. The military service pay increase will be awarded to employees who received an honorable discharge. The amount will be added to the base pay hourly rate. An employee cannot receive both pay supplements for education attainment and military service. The employee should apply for the supplement that would provide him/her the largest pay increase. Employees should allow 30 days for their applications to be processed. The military service increase is effective the pay period immediately following the approval of the application.

On an annual basis, the increases are as follows:

2-10 Years of Active Military Service	\$350.00
11-15 Years of Active Military Service	\$850.00
16+ Years of Active Military Service	\$1600.00

For newly hired employees, department heads should <u>not</u> include the military service amount with the starting pay for the new employees. The military service component can be added and become effective the pay period immediately following the completion of the new employees' probationary periods if the applications are approved by the County Commission's Personnel Committee.
