Mr. Tony Cox, Chairman Morristown/Hamblen County Solid Waste Authority 3849 Sublett Rd. Morristown, TN 37813

The Honorable Bill Britton, County Mayor Hamblen County Hamblen County Courthouse 511 West Second North Street Morristown, TN 37814

The Honorable Gary Chesney, Mayor City of Morristown 700 West First North Street Morristown, TN 37814

Dear Gentlemen:

In accordance with TCA 68-211 Part 7 (The Jackson Law), Lowland Waste Solutions hereby respectfully requests your approval of a Class III landfill adjacent to SR160 in the Lowland area. In accordance with TDEC- Division of Solid Waste Management classifications, a Class III is used for the disposal of:

- Farming Wastes
- Landscaping and land clearing wastes
- Demolition/Construction wastes
- Shredded Automotive Tires
- Other similar wastes approved in writing by TDEC-DSWM

Information concerning the proposed site is as follows:

- Hamblen County Parcel 059-009.00 & 059-009.05
- Located on Enka Highway (SR160)
- Acreage: 83.05 total acres
- Zoning Classification: 09- Industrial

- Within the Morristown Corporate limits
- Portion of the original BASF property

Please not the following information relative to our proposed Class III landfill:

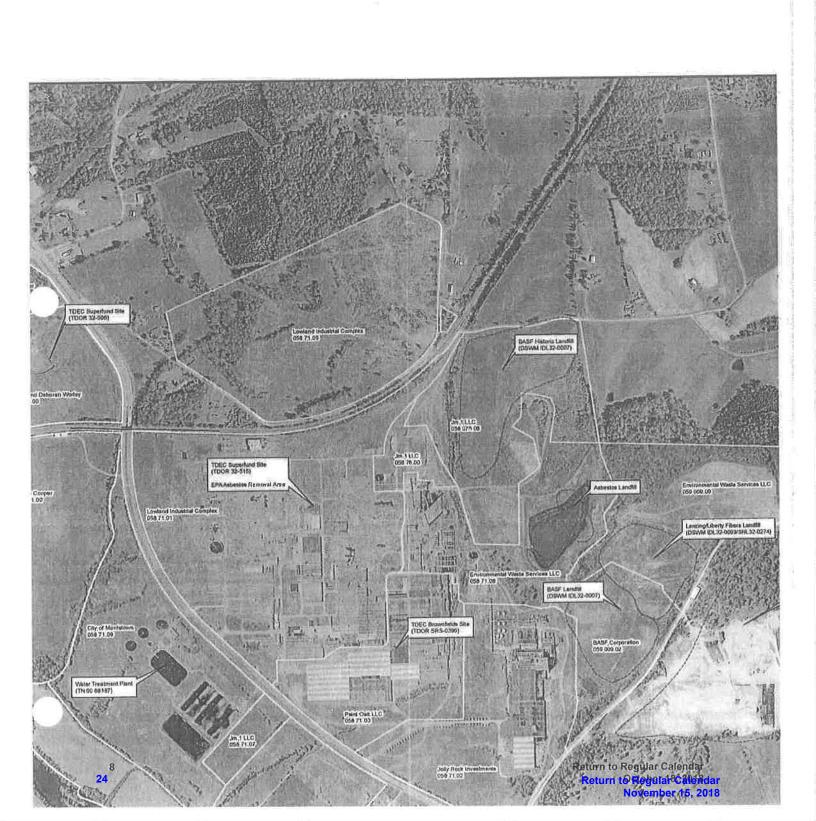

- The landfill will accept Class III waste only
- The waste will be placed, compacted, and covered in compliance with TDEC restrictions
- The site is directly adjacent to an active Class I landfill (Waste Industries, Inc) and previously closed landfill that were operated by Lenzing and BASF
- Noise and odor impacts would be minimal as the site is adjacent to an active Class I landfill, and we will not handle any odorous materials, and would be operated during normal daily working hours
- Impacts to surrounding property values would be minimal due to the existing landfills and industrial sites adjacent to the property
- Existing roads are adequate to accept any additional traffic due to landfill operations that already exist
- Development of a Class III would allow construction and demolition type wastes that are presently being disposed of in the existing Morristown/ Hamblen County Class I Landfill to be diverted. This would extend the life of the existing landfill and minimize materials being deposited in the Class I facility that should be diverted.
- The proposed site is presently zoned for industrial use, which includes landfill development.
- No rezoning is proposed

In accordance with TDEC-DSWM requirements, a Public Notice of your consideration of this request must be issued in accordance with TCA subsection 68-211-703(a) and signage placed in accordance with TCA subsection 68-211-703(h). A copy of a portion of a Hamblen County CLT map with the proposed site highlighted is attached for your reference.

We would appreciate your consideration of this request at a regularly scheduled meeting. If you have any questions or need any additional information, please feel free to contact me at 423-736-3999.

Sincerely,

Patrick McGuffin

Re: Landfill Construction; Jackson Law Requirements/Overview

MEMO ·

Issue: What are the responsibilities and requirements to comply with the Jackson Law regarding construction of a new landfill?

Tennessee Code Annotated §68-211-701 et. seq. as codified is generally known as the "Jackson Law." These statutes govern the local approval of solid waste facilities. I have attached a copy of the TCA sections with this memo, as well as a brief summary from CTAS regarding the Jackson Law. Hamblen County originally adopted the Jackson law on 1-20-1992 and re-adopted this law on 3-20-2003. Since this law has already been adopted in our county, basically this now ensures that the county legislative body has to approve the construction of any new landfill. Furthermore, if the proposed new landfill is within the city limits, or within a mile of the city limits, then the new landfill must also be approved by the municipal governing body.

Prior to either governing body granting approval for the landfill construction, public notice and an opportunity for public hearing must be had. TCA §68-211-703 addresses the required notice in detail. Specifically, in order to inform people in the area where the landfill is potentially going to be constructed, both the County and the City need to provide notice by either posting in public places and post offices near to the proposed landfill and/or by publishing in the local newspaper. The public notice shall contain the following:

-name, address and phone number for the city/county department/agency reviewing the application for the proposed landfill;

-name and address of proposed landfill owner and/or operator;

- -location and size of the proposed landfill;
- -a brief description of the type of operation to be operated at the landfill, the location of the landfill, and the type of waste that will be accepted;
- -a description of the time frame and procedures for making a final determination of the landfill application approval or disapproval; and

-the address and phone number for where citizens can obtain further info about the proposed landfill, request copies of documents and/or review documents about the proposed landfill.

Anyone who is an "interested person" about the proposed landfill can submit comments within 30 days of the public notice being issued and they can also request a public hearing be held. The statute states that if there is significant public interest in having a hearing, one hearing shall be held; if there is a question as to whether or not there is "significant public interest in having a hearing," the hearing should be held. If it is determined that a hearing is going to be held, there needs to be public notice of this hearing provided at least 15 days prior to the hearing. This notice needs to be done by newspaper and by sending notice of the hearing directly to the people who specifically requested info on when the public hearing will be held or requested more info on the proposed landfill. The **public hearing notice** shall contain the following:

-name, address and phone number for the city/county department/agency who was responsible for the application review;

- -name and address of each proposed landfill owner or operator who will be heard at the hearing;
- -a description of the proposed landfill and the type of disposal methods to be used;
 - -a brief reference to the public notice issued for the proposed landfill;
 - -information regarding the time and location for the hearing;
 - -the purpose of the hearing;
- -a concise statement of the issues raised by the persons requesting the hearing;

-address and phone number of the location where interested persons may obtain further info, request a copy of each draft permit, request a copy of each fact sheet, and inspect and/or copy forms and related documents; and

-a brief description of the nature of the hearing, including the rules and procedures to be followed.

Additionally, the proposed landfill owner shall provide notice to all property owners owning property within a 3 mile radius of the landfill at least 15 days prior to any hearing by erecting signs on all roads leading directly to the proposed landfill site. The signs must be erected on such roads at the perimeter of the 3 mile radius, be clearly visible to people traveling into the area, must be at least 3 feet high and 5 feet wide and must contain the following information in clear type:

- -the name of the city/county department/agency reviewing the application;
- -name and address of the proposed landfill owner/operator;
- -location and size of the proposed landfill;
- -a brief description of the type of operation to be operated at the landfill and the type of waste that will be accepted;
- -a description of the time frame for making a final determination on the landfill application approval or disapproval; and
- -the address and phone number of the location where further information and documents pertaining to the landfill can be reviewed and/or copied.

Within 30 days after notice and an opportunity for a public hearing, the County and City governing bodies can take action to approve or disapprove the proposed new construction. Depending on the bodies' action, the matter can be reviewed by the Chancery Court.

Landfill Approval by County - "Jackson Law"

Tennessee Code Annotated Tennessee Attorney General Opinions

Reference Number: CTAS-542

Reference Number: CTAS-542

The so-called "Jackson Law" is an optional general law that may be adopted by a county or municipal legislative body by a two-thirds (2/3) majority vote. If adopted, it provides that no new construction will be initiated for a landfill without the approval of the county legislative body unless the landfill only accepts waste generated by its owner and all such waste is generated in the same county as the landfill. Additionally, if such proposed construction is in an incorporated area or within one mile of an incorporated area, the governing body of the municipality must also approve before construction can be initiated. T.C.A. § 68-211-701. Public notice and public hearings are required before the vote of the legislative body. T.C.A. § 68-211-703. This law states criteria that must be considered by the legislative body in determining whether or not to approve the construction. Judicial review of the legislative body's determination may be had before the chancery court for the county in which the landfill is to be located. T.C.A. § 68-211-704. The Tennessee Court of Appeals upheld a decision by the Davidson County Chancery Court that exclusion of county and municipal landfills from application of the Jackson Law as provided in T.C.A. § 68-211-706(b) is unconstitutional as a violation of the equal protection clause since there is no rational basis for this discrimination against private landfills. However, the Court applied the doctrine of elision (removal of offending provision, exemption of public landfills) and upheld the remainder of the act. Profill Development, Inc. v. Dills, 960 S.W.2d 17 (Tenn. App. 1977).

In 2013, the Jackson Law was amended to increase the scope of the law to include a change in classification of a landfill to a classification with higher standards. However, this amendment provides that it only applies if independently approved by a two-thirds vote of the county legislative body if the county adopted the Jackson Law prior to May 13, 2013.

In a statute separate from the "Jackson Law," municipalities must obtain the approval of the county legislative body at two consecutive regularly scheduled meetings before the municipality may exercise the power of eminent domain to obtain property to be used as a landfill for solid waste disposal outside of the corporate limits of the municipality. T.C.A. § 68-211-122.

RE: Coverage for Other County Employees - not the Officials

Hi Anne,

The crime policy covers all county employees, not just the public officials. The policy doesn't name anyone specifically. With the approval of the insurance company, we added the specific public officials' titles/names to the evidence of insurance in order to satisfy the state requirement. Let me know if you have additional questions.

Have a great afternoon!

Tammy – specifically to what levels are other County employees covered under the Government Crime Policy – to the same limits as the officials or to a different level?

Thanks for some follow-up explanation -

Insurance as a Substitute for Bonds

Tennessee Code Annotated Tennessee Attorney General Opinions

Reference Number: CTAS-2205

Reference Number: CTAS-2205

In 2016, the legislature enacted Public Chapter 749, which authorizes counties to purchase insurance policies in place of bonds for both officials and employees. Purchase of such insurance policies is purely optional and at the discretion of the county legislative body. Under the new law, the county legislative body can opt to cover all or some of the county's officials and employees using insurance rather than bonds.

Under the amended law, codified at T.C.A. § 8-19-101, should a county choose to purchase insurance, the insurance policy must provide minimum coverage of \$400,000 per occurrence and insure the lawful performance by officials and/or employees of their fiduciary duties and responsibilities. Each covered official and office must be listed in the policy.

Counties must file a certificate of insurance evidencing the officials and offices covered, the amount of coverage and the type of coverage provided in the register's office. Filing the certificate of insurance in the register's office satisfies the requirements for filing official bonds by the named officials.

Choosing the insurance option does not affect the liability limits provided in the Tennessee Governmental Tort Liability Act.

Subject: Hamblen County Recommended Zoning Amendments

The Hamblen County Regional Planning Commission has recently recommended three zoning amendments to the Hamblen County Zoning Resolution. The amendments pertain to:

 Section 7.4, Development Standards for Automobile Wrecking, Junk and Salvage Yards, and Dumps

Section 6.11, Accessory Building Regulations/Restrictions

• Article V, Definitions

<u>RECOMMENDED AMENDMENT ONE:</u> Development Standards for Automobile Wrecking, Junk and Salvage Yards, and Dumps

Background

Hamblen County has been considering amending Subsection K, Amortization Schedule, of Section 7.4 since at least 2016. The current regulations stipulate that junkyards will lose their (grandfathered status) non-conforming protection after a number of years. This is problematic for the county for a number of reasons. First, this section is contrary to the concept of non-conforming status, in that zoning will not retroactively go back and fix problems. Second, it is contrary to state law nonconforming provisions for commercial and industrial uses (TCA 13-7-208) in the allowance of expansions and a generous grace period for a dis-continued use. This section is also contrary to Section 6.2 of the Hamblen County Zoning Resolution for non-conforming buildings/uses. Next, losing nonconforming protections also conflicts with general land use law due to the specific targeting of a particular use in a way that has the effect of eliminating that particular use from the county. Lastly, imposing regulations that eliminate protections for a specific use generally creates a situation where a regulatory taking could be claimed against the county. There have been workshops held by the county that led to the recent recommendations by the planning commission. The intent of the recommendations is to replace Section K, Amortization Schedule, with a new Section K, Expansions in order to provide safeguards for the county pertaining to existing junkyards. Therefore, the end result would be for Section 7.4, as a whole, to provide oversight for newly developed junkyards and expansions of existing junkyards. In addition, while holding workshops for this section of the zoning resolution, Section C was also recommended to be amended. The intent of this amendment is to delete the reference to variances may be granted for issues related to traffic safety. Because the board of zoning appeals is an administrative quasi-judicial board established for the purpose of minimizing undue hardship for citizens, the board is not limited in only considering action related to traffic safety. Every citizen has the right to petition the board with the board considering a multitude of factors related to their specific situation. The intent is to delete this generalized statement and afford the established process already mentioned in the zoning to supersede for citizens to make appeals to the board. The other intent is to include language to guard against stacking automobiles to a height that would be higher than mandatory screening requirements.

¹ The term "junkyards" includes all of the uses noted in the sectional heading.

HAMBLEN COUNTY REGIONAL PLANNING COMMISSION RECOMMENDATION:

Subsection K, Amortization Schedule, of Section 7.4 be deleted in its entirety and replaced with a new Subsection K, Expansions and amend Subsection C of Section 7.4 with the deletion of the reference to variances and the addition of maximum height (stacking) limits.

RECOMMENDED AMENDMENT TWO: Accessory Building Regulations/Restrictions

Background

Hamblen County has amended Section 6.11, Accessory Building Regulations/Restrictions more than once since 2016. There also have been workshops held by the planning commission recently before reaching consensus on the manner in which accessory buildings should be regulated. Staff has provided different options for the planning commission to consider. None of these options are necessarily better than the other, but were considered from the perspective of what will work best for Hamblen County. Consequently, consensus was reached by the planning commission to include amendments that added no maximum size for accessory buildings located on property over three acres, but compliance with required setbacks, and for property three acres or less, a maximum building size related to a range of different lot sizes as specified in the zoning resolution.

HAMBLEN COUNTY REGIONAL PLANNING COMMISISON RECOMMENDATION:

Amend Section 6.11 to allow an unlimited maximum building size for buildings located on over three acres, with adherence to required setbacks, maximum building size of 1,200 square feet for buildings located on lots less than one acre, maximum building size of 1,800 square feet for buildings located on lots between one to two acres, and a maximum building size of 2,400 square feet for buildings located on lots between two to three acres.

RECOMMENDED AMENDMENT THREE: Add "Recreational Vehicle" as a new definition.

Background

This recommendation is a result of continuing discussion in the past regarding people living in campers on a permanent basis. In the past, a "temporary housing" definition was considered to try to address the problem. Recently, a different approach was recommended to address the problem. Rather than include a term that contained "housing" in it, add a new definition that defines recreational vehicles in a standardized form that includes the stipulation that these are not be used for permanent habitation.

HAMBLEN COUNTY REGIONAL PLANNING COMMISSION RECOMMENDATION:

Add new definition "Recreational Vehicle" as (as specified in Resolution) broad standardized definition that clearly states that these are not for permanent habitation.
