- SOME ADDITIONAL PRIVATE CROSSINGS MAY BE INCLUDED

SCHEDULED START DATE: 8/6/18

Norfolk Southern will be performing maintenance and repair work on the railroad in your area and on the above mentioned railroad crossings (in the listed order).

Duration of closures is dependent on track time, weather, and other factors, but on average each crossing takes 2-3 days. Multiple crossings may be closed at once depending on their proximity to each other. RoadSafe Traffic, Inc. will provide traffic control and detour signage for Norfolk Southern during this job. Our tech on site will contact local 911 centers before closures become active. If you have any questions, please contact Courtney Rombow.
