Subject: Hamblen County Recommended Zoning Amendments

The Hamblen County Regional Planning Commission has recently recommended three zoning amendments to the Hamblen County Zoning Resolution. The amendments pertain to:

- Section 7.4, Development Standards for Automobile Wrecking, Junk and Salvage Yards, and Dumps
- Section 6.11, Accessory Building Regulations/Restrictions
- Article V, Definitions

RECOMMENDED AMENDMENT ONE: Development Standards for Automobile Wrecking, Junk and Salvage Yards, and Dumps

Background

Hamblen County has been considering amending Subsection K, Amortization Schedule, of Section 7.4 since at least 2016. The current regulations stipulate that junkyards¹ will lose their (*grandfathered status*) non-conforming protection after a number of years. This is problematic for the county for a number of reasons. First, this section is contrary to the concept of non-conforming status, in that zoning will not retroactively go back and fix problems. Second, it is contrary to state law non-conforming provisions for commercial and industrial uses (*TCA 13-7-208*) in the allowance of expansions and a generous grace period for a dis-continued use. This section is also contrary to Section 6.2 of the Hamblen County Zoning Resolution for non-conforming buildings/uses. Next, losing non-conforming protections also conflicts with general land use law due to the specific targeting of a particular use in a way that has the effect of eliminating that particular use from the county. Lastly, imposing regulations that eliminate protections for a specific use generally creates a situation where a regulatory taking could be claimed against the county. There have been workshops held by the county that led to the recent recommendations by the planning commission. The intent of the recommendations is to replace Section K, Amortization Schedule, with a new Section K, Expansions in order to provide safeguards for the county pertaining to existing junkyards. Therefore, the end result would be for Section 7.4, as a whole, to provide oversight for newly developed junkyards and expansions of existing junkyards. In addition, while holding workshops for this section of the zoning resolution, Section C was also recommended to be amended. The intent of this amendment is to delete the reference to variances may be granted for issues related to traffic safety. Because the board of zoning appeals is an administrative quasi-judicial board established for the purpose of minimizing undue hardship for citizens, the board is not limited in only considering action related to traffic safety. Every citizen has the right to petition the board with the board considering a multitude of factors related to their specific situation. The intent is to delete this generalized statement and afford the established process already mentioned in the zoning to supersede for citizens to make appeals to the board. The other intent is to include language to guard against stacking automobiles to a height that would be higher than mandatory screening requirements.

¹ The term "junkyards" includes all of the uses noted in the sectional heading.

HAMBLLEN COUNTY REGIONAL PLANNING COMMISSISON RECOMMENDATION:

Subsection K, Amortization Schedule, of Section 7.4 be deleted in its entirety and replaced with a new Subsection K, Expansions and amend Subsection C of Section 7.4 with the deletion of the reference to variances and the addition of maximum height (stacking) limits.

RECOMMENDED AMENDMENT TWO: Accessory Building Regulations/Restrictions

Background

Hamblen County has amended Section 6.11, Accessory Building Regulations/Restrictions more than once since 2016. There also have been workshops held by the planning commission recently before reaching consensus on the manner in which accessory buildings should be regulated. Staff has provided different options for the planning commission to consider. None of these options are necessarily better than the other, but were considered from the perspective of what will work best for Hamblen County. Consequently, consensus was reached by the planning commission to include amendments that added no maximum size for accessory buildings located on property over three acres, but compliance with required setbacks, and for property three acres or less, a maximum building size related to a range of different lot sizes as specified in the zoning resolution.

HAMBLLEN COUNTY REGIONAL PLANNING COMMISSISON RECOMMENDATION:

Amend Section 6.11 to allow an unlimited maximum building size for buildings located on over three acres, with adherence to required setbacks, maximum building size of 1,200 square feet for buildings located on lots less than one acre, maximum building size of 1,800 square feet for buildings located on lots between one to two acres, and a maximum building size of 2,400 square feet for buildings located on lots between two to three acres.

RECOMMENDED AMENDMENT THREE: Add "Recreational Vehicle" as a new definition.

Background

This recommendation is a result of continuing discussion in the past regarding people living in campers on a permanent basis. In the past, a "temporary housing" definition was considered to try to address the problem. Recently, a different approach was recommended to address the problem. Rather than include a term that contained "housing" in it, add a new definition that defines recreational vehicles in a standardized form that includes the stipulation that these are not be used for permanent habitation.

HAMBLLEN COUNTY REGIONAL PLANNING COMMISSISON RECOMMENDATION:

Add new definition "Recreational Vehicle" as (*as specified in Resolution*) broad standardized definition that clearly states that these are not for permanent habitation.
