# RESOLUTION IN SUPPORT OF DRUG DEALER LIABILITY ACT LAWSUIT

The Hamblen County Leg	islative Bo	dy meeti	ng in r	egular sess	sion on the	e	day of
2021, a quo	rum being	g present	and a	a majority	voting in	the	affirmative,
hereby RESOLVES as follows:							

WHEREAS, Hamblen County, as well as other counties in Tennessee and in surrounding states, has experienced an epidemic related to the distribution and use of opioids by its citizens that has generated critical issues and problems for Hamblen County, including but not limited to opioid addiction by Hamblen County citizens, drug overdose deaths, the birth of drug dependent babies, a rise in criminal charges convictions for the illegal sale and use of opioids as well as other crimes resulting from the opioid abuse epidemic, including but not limited to burglary, theft, and fraud, and the lost of productivity of the citizens in the workplace, damage and destruction to the family unit, all resulting from the illegal sale, distribution, and use of opioids in Hamblen County;

WHEREAS, District Attorney Dan Armstrong is the duly elected District Attorney General for the 3<sup>rd</sup> Judicial District of the State of Tennessee;

WHEREAS, General Armstrong brought a lawsuit in 2017 through the law firm of Branstetter, Stranch & Jennings, PLLC to recover money for Hamblen County under Tennessee's Drug Dealer Liability Act ("DDLA"), and that lawsuit is pending in Sullivan County Circuit Court;

The Hamblen County Commission hereby RESOLVES that it fully supports the lawsuit, approves of the actions taken in the lawsuit thus far on its behalf, and approves of the lawsuit going forward with Hamblen County as named plaintiff, and retains District Attorney General Dan Armstrong and the law firm of Branstetter, Stranch & Jennings, PLLC as counsel in this matter.

# Memo to County Attorneys in the Third Judicial District From

# Dan Armstrong, District Attorney General

As you know by now, the Tennessee Supreme Court has issued an opinion in a sister suit to the one I filed on your behalf, affirming that Big Pharma can be sued and held liable under the Drug Dealer Liability Act. This is a major victory and step forward in the lawsuit I filed on your behalf in the summer of 2017.

They also ruled that, while I may represent you in the pending action, I cannot stand in for you as plaintiffs. Enclosed you will find two documents we believe, that if approved by you and the county commission will allow us to go forward, on your behalf, in the pending lawsuit. Please review and me and members of the Branstetter law firm would be happy to meet with you and discuss any concerns or questions you have. It is important to taken action, as soon as possible. Our case is trial ready as soon as covid restrictions are lifted, and we will be asking the court for a trial date as soon as we resolve this technical requirement imposed by the Tennessee Supreme Court ruling in the sister case.

#### RETAINER AGREEMENT

This agreement is made between Branstetter, Stranch & Jennings, PLLC, and Dan Armstrong, District Attorney General for the 3<sup>rd</sup> Judicial District, hereafter referred to as "Attorneys" and Hamblen County, Tennessee. The terms of our representation are as follows:

#### **Services to be Rendered:**

The legal services to be provided under this agreement are as follows:

- 1. Representation in lawsuit relating to the opioid crisis in Tennessee, filed in Sullivan County.
- 2. Attorneys will make best efforts in the representation and shall adhere to the Tennessee Rules of Professional Conduct in all respects.

#### **Costs of Services:**

The costs of services to be provided under this agreement are as follows:

- 1. Attorneys will advance all litigation costs. Client has no obligation to reimburse attorneys for any costs of litigation, unless successful. Attorneys have the right to petition the court for reimbursement of any costs associated with the litigation.
- 2. Attorneys have the right to petition the court, if successful, for attorneys' fees on the basis of fee reversal, fee shifting, or fees pursuant to a common fund. Attorneys will make every effort to avoid a contingency fee situation, but in the case of a lump sum settlement, Attorneys will be entitled to 25% of total recovery plus costs advanced in the litigation.

#### **Risk of Legal Action**

It is impossible to predict the res	sult of a legal action.	Client recognizes t	hat Attorneys cannot guara	antee a
favorable result in this case.

Re:

Video Recording of Commission and Committee Meetings

Mayor Brittain,

I am requesting the county commission revisit the issue of video recording of Commission and Committee Meetings to clarify that no editing of the recording is permitted between the call to order and adjournment of the meeting, but that portions of the recording prior to the call to order and following adjournment may be cut from the recording.

This is necessary because, in order to ensure the entire meeting is recorded, the recording begins several minutes prior to the call to order, and does not stop until after the meeting is adjourned.

I also ask that commission clarify that the recordings shall be archived by the County Clerk and the County Archives departments (as they currently are), as well as distributed to local media outlets, as the November 2020 motion did not provide for the local archiving of the recordings.

#### Administrators,

Now that the 2020 election has past, I wanted to reach out to you all to discuss the timeline for the upcoming redistricting process. I know many of you will be involved in the Redistricting process and are already getting asks questions. This go around will be unique with the uncertainty of COVID and the possible delays in the Census data releases. Rest assured, that when the data is released, we will be ready to go and there to support you all. To help with your planning for next year here is the tentative timeline for Local Redistricting:

\*All these dates are subject to change due to COVID and any data delays.

February 2021 – Guide to Local Redistricting to be released. This is a comprehensive guide to all things redistricting in Tennessee. Whether this is your first, second, or third time involved with redistricting, the guide is a good place to start. The guide provides an in-depth review of the legal, technical and data requirements of local redistricting.

As soon as the redistricting guide is complete, distribution will be made to all involved parties. It will also be available for download on our website. tncot.cc/redistricting

March 2021 – Geography data released. This is the geography we will use for redistricting.

April 2021 – PL 94-171 Data "aka the population data" we use will get released.

May-June 2021 – Local Redistricting Kick-off. This is when software, data, and maps get released to officials.

June - December 2021 - Local Redistricting Takes Place

- County Commission redistricts first (They set the Districts)
- Then you all (the Election Commission) set your precincts and polling places/vote centers.

January 1st, 2022 – Local Redistricting Deadline. This is when your county needs to have their redistricting plan completed and submitted to our office by.

January 2022 – Legislature releases their redistricting plan (House, Senate, Congress). If your county gets split by a legislative district(s) (Especially if you get split by a Senate District), we will reach out to you to make the appropriate adjustments.

Our office will not receive the 2020 census population data until April, possibly later, therefore, the actual work involved with redistricting will not begin until June or possibly later. The statutorial deadline to complete redistricting is January 1, 2022. Depending on when the census maps and population data are available, you will only have between five and six months to develop and finalize a new county commission district plan. As a result, we recommend that local officials

- Establish a redistricting committee Sample Resolution is available on our website towards the bottom tncot.cc/redistricting
- Review your current districts
- Review private acts in your county
- Read the manual that will be sent out
- Appoint a technical lead or point of contact person in your county to avoid confusion

Being proactive in the redistricting process can help assure that you have a smoother transition when it's time to redistrict. Due to a potential backlog of final map requests from our office in November and December, it may be a good idea to set your own deadline much sooner than January 1.

That brings me to what you should be thinking about as an AOE and Election Commission.

Start thinking about the level of assistance that you and the Election Commission need.

- You can have CTAS assist you (Free).
- You can have our office assist you (Free). Myself, John Thomas, or Ned Phillips will assist.
- Our office provides all the software, maps, and guides.

Let us know what level of assistance you require by March 2021. Earlier if possible.

Also, we need your need help in getting the addresses of the County Commissioners. This will be used to display their locations on the map when we are Redistricting.

At your earliest convenience please send a list of County Commissioners with their Name & Address to me.

We will keep you aware of any changes to the timeline or the process should they occur. As always, let me know if you have any more questions.

# 4.10 MILITARY LEAVE

Regular full-time employees who are members of any federal or state military reserve component will be granted a leave of absence for all periods of military service during which they are engaged in the performance of duty or training for this state or for the United States under competent orders. While on leave, the employee will receive his or her regular compensation for a period not exceeding twenty (20) working days per calendar year, plus any additional days, that may result from a call to active state duty by the Governor. Such requested leave shall be supported with copies of the official armed forces orders from the employee's unit.

The employee must submit a copy of the official armed forces orders to his/her supervisor. The supervisor will forward a copy of the official orders to the Human Resources payroll department. During such time that the employee is on military training leave, the employee's time sheet should indicate "Military Leave."

If a military leave of absence exceeds the twenty (20) paid days and the employee has exhausted his or her sick and annual paid leave or wishes to be unpaid, the employee will stop accruing additional sick or annual leave during that absence.

Should the full-time employee enter the military on an active basis, the employee must present his or her orders to their supervisor as soon as they receive them. The full-time employee will be granted an unpaid leave of absence to serve a tour of duty. Military Leave shall be granted in accordance with T.C.A. Title 8, Chapter 33, and section 109.

Employees in military service shall be governed by the requirements of, and shall have all of the rights and benefits conferred upon such persons by state law found in T.C.A. Title 8, Chapter 33, and under USERRA.

If you are a Reservist or National Guardsman called to Active Duty you may be worried about your health care coverage. **Don't worry** - you and your family are eligible for coverage under TRICARE. Reserve and guard members as well as their families are eligible for government sponsored healthcare under the TRICARE program.

RE: Request for Qualifications – Hamblen County Justice Center Commissioning Services

Dear Selection Committee,

Entegrity has enjoyed serving as the Commissioning Authority (CxA) for organizations throughout the U.S. As a result, our clients have experienced reduced energy usage, improved building comfort, enhanced operations and maintenance, and planning for the best use of their capital. We are excited for the opportunity to work with Hamblen County on the new Justice Center.

This justice center will be a unique facility with a variety of specialized systems and uses. In order to enjoy the greatest success, it is important for Hamblen County to select a CxA whose strengths align with your values and facility needs, and whose professionals have the proven capability of working in corrections and law enforcement.

Over the course of this project, there will be dozens of designers and hundreds of contractors contributing thousands of work-hours with the goal of producing a facility that Hamblen County will occupy for decades. As your CxA, we act as an independent agent that will ensure the building meets your requirements.

What makes Entegrity unique?

We are truly independent, not tied to either the design or construction teams. We are, however, widely respected by our professional colleagues in design and construction for our ability to vet and solve problems in a team setting. We have vast experience in serving as the Commissioning Authority for millions of square feet and for specialized corrections systems like security and extreme durability.

We understand Corrections operations and county governments. This experience guides our approach to commissioning. We can and have handled a large volume of commissioning work at any given time by bringing in staff from all offices, and cross-training staff between energy engineering, building testing, and commissioning.

We are a training-centric firm, focused on bridging the knowledge gap by effectively linking design phase to construction and ensuring a smooth transition from construction and into owner training, acceptance, and operation.

# OPTIMIZING BUILDING PERFORMANCE

Our pricing is tailored specifically for the scope of the project to achieve optimal building performance. We price each required task associated, including all travel and expenses, and execute the required tasks regardless of how long it takes. This means we don't issue change orders, unless the project design changes significantly. In our twelve years of operation, we have issued less than 10 change orders for over 600 projects.

**We specialize in energy efficiency** as shown by the additional services we have in house: sustainability certifications, energy assessments, energy modeling, retro-commissioning, measurement and verification, envelope testing, etc.

We provide real-time feedback during site visits using advanced commissioning software. Entegrity provides building stakeholders innovative and sustainable solutions to make buildings operate the way they were designed. That is how we have had the opportunity to provide commissioning, building testing, and energy related services on over 600 projects in the US.

**Our commitment to optimizing building performance is historic.** Beyond our vast experience helping others, we walk the walk, too! Recently, our headquarters in Little Rock, Arkansas, was awarded the first LEED Net Zero Energy certification in the nation (second in the world) from the U.S. Green Building Council.

We maintain a team with strong certifications, even though we do not provide design services, including: LEED AP/Fellow, CHFM, RA, RLA, CEA, CEM, CxA, CxT, CCP, BCxP, IECC CE, PE, and Air Barrier Association of America Field Auditors, ABA Thermographers, and forensic drone pilots. Regardless of what credentials or specializations might be required, we have them. We are members of many of these organizations as well, including Building Commissioning Association, AABC Commissioning Group, ASHRAE, and NEBB.

It would be our great pleasure to serve as the Commissioning Authority for the Hamblen County Justice Center.

Please feel free to ask for additional information as needed.

Sincerely,

# SERVICES

### SUSTAINABILITY

Using LEED, WELL, LBC, ARC, and other certification programs, Entegrity provides prescriptive or performance based sustainability certification options, including Net Zero Energy. As a nationally recognized sustainability consultant, Entegrity can support single, prototyped, and/ or volume facilities at any phase of a design, construction or operations building project.

## ENERGY ENGINEERING

Entegrity offers a variety of services designed to reduce energy use and costs for the building. This includes building modeling, which includes simulations to prioritize energy efficiency measures, optimize daylight and calculate outside air. Measurement and Verification, Investment-Grade Audits (IGA) and Utility Rebate Analyses can also be performed.

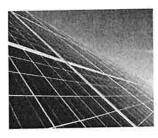

#### COMMISSIONING

Our comprehensive commissioning approach ensures a functional facility that provides a productive working environment at the lowest possible costs. Entegrity's commissioning process and implementation has been developed to meet and exceed the requirements of most federal, state, and local agencies commissioning guidelines. Our commissioning services include new building commissioning, certification program commissioning, retro commissioning, and building envelope commissioning.

## BUILDING YESTING

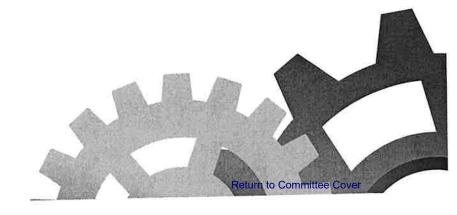

Entegrity offers a variety of services designed to improve occupant comfort and well-being as well as reduce energy use and costs for the building. This includes envelope air leakage testing, indoor air quality testing, building forensics, infrared thermal imaging and smoke tracer diagnostics, building mock-up testing, and water intrusion testing.

#### SOLAR

Entegrity specializes in the development, engineering, construction, and financing of highquality solar projects. With the recent cost reductions in manufacturing, installation and equipment costs, solar photovoltaic (PV) systems are more cost effective than ever before. Entegrity is committed to delivering affordable and intelligent solar solutions to sustainable goals of our education, municipal and commercial customers.

Entegrity's commissioning services encompass various scopes of commissioning activities including total building commissioning, retro commissioning, re-commissioning, ongoing commissioning and other specified commissioning scopes.

An efficient and effective commissioning process is one that integrates with and enhances the existing design and construction management plans. Entegrity will work with the client to clearly define expectations for the commissioned systems and work closely with the project design, construction and operation teams to achieve those expectations. Provided below is Entegrity's approach to commissioning, as well as, the activities and documentation involved. In general, Entegrity follows the best practice available in the commissioning industry.

#### PROJECT MANAGEMENT

A pre-defined and well communicated management plan will be used to detail the commissioning agent's role within the project team hierarchy. The commissioning management plan will include communication protocols, primary contact information for the commissioning team, document management plans, and commissioning scheduling and testing requirements. An efficient commissioning process requires effective communication of the commissioning roles and responsibilities, including how these responsibilities relate to the other design and construction team members, and formal documentation of the work progress required to perform the commissioning activities. The management plan will also account for lessons learned on previous commissioning projects.

The formal documents utilized for commissioning management and activities may include:

Cx Process Flow Chart and Communication Protocol Owner's Project Requirements Basis of Design Response from Design Team Cx Specifications Cx Meeting Minutes Cx Plan Cx Responsibility Matrix Cx Test Plan and Schedule Design and Submittal Review Pre-Functional Checklists Performance Verification Checklists TAB Review and Verification **Functional Test Reports** Corrective Action Log Final Commissioning Report Facility Management Assessments Training Plans and Agenda Systems Manual Operations & Maintenance Plan Current Facilities Requirements Service Life Plans

INTEGRATING COMMISSIONING ACTIVITIES

Proper definition and documentation of the owner's project requirements (OPR) and design assumptions are vital activities that all design professionals seek to complete before finalizing design and construction Documentation of the OPR documents. and Basis of Design by the design team, as well as, design and submittal reviews by the commissioning agent contributes to a more efficient design process and helps minimize the amount of addenda and ASI's required for a project. Entegrity will be an active participant throughout the entire design process, thus ensuring all requirements, especially operational and maintenance issues, are integrated into each design. Entegrity considers the OPR as a living document, updating it as owner

requirements are modified throughout the process and verifying each modification is transferred to the design and construction teams.

Through the use of a comprehensive Commissioning Test Plan and Schedule, the Entegrity team will set scheduled dates for draft test plans and all milestones related to equipment/system installation, inspection, and testing. Pre-functional checklists and functional test procedures are provided to the commissioning team via the commissioning plan, which allows the contractor to review installation requirements and demonstrate compliance before the CxA verifies installation and performance. This integration of Cx requirements allows the construction team ample time to coordinate equipment requirements, remedy deficiencies and assures the commissioning team that the required milestones are achieved before on-site verification and testing. This process minimizes surprises for both the construction and commissioning team.

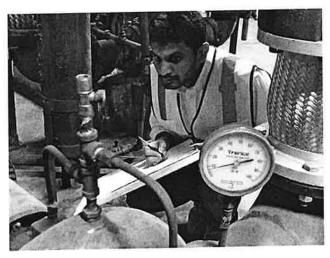

The Pre-Functional Checklists, Performance Verification Checklists, and Functional Test Forms are developed to define and verify all required modes of operation, provide clear communication with the construction team, and allow for the most efficient completion of the commissioning process. Using one of the most effective Commissioning software available, Building Start, the checklists and test forms are completed during the on-site observation and testing. These advanced checklists and forms allow Entegrity to provide real-time feedback to the construction team for timely resolution of any issues, as well as, efficient documentation of the commissioning findings.

COMMISSIONING: TEAMWORK AND COOPERATION

Lack of understanding and trust in the commissioning process is probably the biggest challenge to an effective commissioning process. Since the commissioning agent (CxA) works closely with the owner, design team and construction team, it is critical that the CxA foster an attitude of teamwork and cooperation throughout the entire process. Entegrity is truly a third-party CxA, which prevents

us from having conflicts of interest with other project team members. To further avoid or minimize potential adversarial relationships amongst the project team, Entegrity will clearly define our goals for the commissioning process with the team and execute the process transparently with a focus on providing the owner the best building possible.

Entegrity defines the commissioning process and communication protocol early in the project, then continues to educate the commissioning team on the commissioning process through milestone meetings such as the pre-commissioning and controls coordination meetings. Likewise, Entegrity provides consistent updates to the team of design and construction deficiencies through the use of field reports and corrective actions logs to ensure all deficiencies are addressed by the responsible parties per the owner's requirements.

Entegrity strives to efficiently remedy deficiencies at the point where they are found, with the least amount of management as possible. Direct communication

with the appropriate subcontractor while keeping the Construction Manager informed allows for swift resolution to a deficiency and eliminates the personal and political fallout from an "up-the-chain" communication process. Any deficiencies that are not addressed within a pre-determined time frame will be communicated to the appropriate party for resolution. Regardless of how quickly an issue is addressed, all issues found during the commissioning process are properly documented through the commissioning corrective action log and verified by the CxA. The complete corrective action log is reviewed with the owner upon project close-out.

## APPROPRIATE PROJECT COMMISSIONING

Each project has unique challenges and specific goals that help determine the level of commissioning required to achieve success. The level and focus of commissioning efforts should be appropriate to a project's size, complexity, its mission, and an owner's risk management strategy. After the project delivery team has determined the essential project performance requirements, commissioning goals for project quality, efficiency, and functionality can then be established, and a commissioning approach and scope can be developed. Entegrity works extensively with the owner and project delivery team to help define and understand the factors that drive each project and shape the required commissioning effort.

# SPECIALIZED SYSTEM EXPERIENCE

Through previous experience with high performance building venue projects, various Entegrity team members have an in-depth knowledge of specialized systems and their associated control and

operating issues. Entegrity has commissioned solar PV and solar thermal systems, rainwater harvesting systems, geo-exchange equipment, building envelope systems, de-icing systems and custom air handling equipment. This specialized experience ensures the Entegrity commissioning process adds value to the project and helps the owner achieve the required goals for the project.

Additional specialized system commissioning experience includes:

- Medical and Laboratory Gas
- Refrigeration Systems
- Lab and Fume Hoods
- Building Envelope
- Domestic Water and Process Water
- Power Air
- HVAC Systems & Controls
- Exhaust Air
- Life Safety

- Security
- Emergency and Standby
- Lighting Controls
- Chilled and Heating Water Systems
- Building Automation
- HVAC Air Handling Systems
- Fire Protection & Fire Alarm
- Steam and Condensate
- Energy Management

# OWNER TRAINING: ADDED COMMISSIONING VALUE

Entegrity understands that a major component of the commissioning process is training of the staff responsible for operating the newly commissioned facility. The CxA can be an important resource to owners to confirm that not only does the construction documents properly outline the training requirements, but also that staff members receive credible training that is site-specific and relevant. In addition, the inclusion of facility operators throughout the construction process is a valuable training tool for the facility staff. Not only does the commissioning process verify that the appropriate staff and operators are formally trained to operate and maintain each item of equipment, the process also

confirms that the operators fully understand how integrated systems function and how these systems interface with others to run the building efficiently.

Entegrity coordinates, monitors, and verifies that the system trainers and the facility staff understand the unique strategies that the drive design intent and control sequences in all modes of operation in normal, alternative and emergency operations. In addition to training, Entegrity also verifies that the facility management team has received the appropriate operational documentation on the commissioned equipment and systems and is prepared to effectively operate the newly commissioned systems.

Request for Qualifications – Hamblen County Justice Center Commissioning Services (2020-10Q)

### **INTRODUCTION:**

Hamblen County (hereafter referred to as "County") is soliciting qualifications for the commissioning services of building MEP systems in compliance with Section C408 of the 2012 International Energy Conservation Code and as described in Section II Scope of Commissioning Services on the Hamblen County Justice Center Project. The proposed Justice Center is a three (3)-story building with basement in approximately 196,000 square feet. It will consist of a 600-625-bed jail facility, three (3)-courtrooms, clerk office, community service office, judges office suite, and jail administration.

The County's selection process will rely on the evaluations of the submitted qualifications and any subsequent supplemental evaluation process deemed necessary by the Justice Center Committee such as the request for additional information as may be undertaken by the County at its sole discretion.

## I. PROJECT OVERVIEW:

The County is currently in the construction document phase of the Justice Center Project. The facility will be constructed on county-owned property located on West 3<sup>rd</sup> North Street in Morristown, TN. The construction of the project is expected to bid in January 2021 with construction duration of approximately 24 months. Mechanical, electrical and plumbing equipment are in the process of being finalized but will generally be as described in the attached equipment schedules.

#### Project Team:

Moseley Architects located in Charlotte, North Carolina has been contracted for Architectural and Engineering services for this project. BurWil Construction Company located in Knoxville, Tennessee has been contracted for Project Management Services.

# II. SCOPE OF COMMISSIONING SERVICES:

- Perform commissioning of all building HVAC, domestic hot water, and lighting controls included in the proposed project.
- Commissioning scope shall include all activities described in Section C408 of the 2012 International Energy Conservation Code.
- Commissioning agent shall have a valid Professional Engineer (PE) license in Mechanical Engineering within the State of Tennessee.
- Provide the following deliverables directly to the County or its representative during the project phases indicated:

Construction Documents Phase: Commissioning specifications outlining the responsibilities of the Commissioning Agent, Contractor(s), A&E Firm and the County. This deliverable has a deadline of January 15, 2021, based on the successful commissioning agent having a fully executed contract by December 18, 2020.

<u>Construction Phase:</u> Commissioning Plan describing the commissioning activities, applicable equipment types, testing procedures and performance criteria.

<u>Prior to Certificate of Occupancy:</u> Preliminary commissioning report of commissioning test procedures and results to the County as described in Section C408.2.4 of the 2012 International Energy Conservation Code.

## Project Close-Out:

Systems Manual containing the following:

- a. Submittal Data
- b. Manufacturers' O&M manuals
- c. Control Drawings
- d. Recommended schedules for ongoing testing and maintenance
- e. Narrative describing how each commissioned system is intended to operate (including recommended set-points)

Final commissioning report as described in Section C408.2.5.4 of the 2012 International Energy Conservation Code.

#### Revisions to the RFQ:

In the event it becomes necessary to revise any part of this RFQ, addenda will be produced in writing and submitted to all prospective respondents known to the County and will be listed on the Hamblen County website, www.hamblencountytn.gov, under the Bids and Proposals Tab.

The County reserves the right to cancel or to reissue this RFQ in whole or in part prior to the execution of a contract.

#### Period of Performance:

The period of performance of any contract resulting from this RFQ is tentatively scheduled to begin upon award of a contract.

#### Subcontract Terms:

The successful respondent will  $\underline{not}$  subcontract any portion of their duties under this RFQ or subsequent contract without the prior written consent of the County.

#### **Contract Terms:**

All items in this RFQ must be included with the proposal submission. All contracts between parties as a result of this RFQ shall be governed by and enforced in accordance with the laws of the State of Tennessee. In the event a dispute arises, the venue shall be in Hamblen County, Tennessee. The County shall require the person with authority to bind the company to sign all agreement(s) with the County.

#### **Contract Termination:**

The County reserves the right to cancel the contract at any time for breach of contractual obligations without penalty or recourse by giving the Commissioning Agent a written notice of such termination of at least thirty (30) calendar days prior to said cancellation. Prior to issuing such a notice, the County will, if appropriate, provide the Commissioning Agent with an opportunity to cure the breach within a reasonable period of time. Should the County exercise its right to terminate the contract for such reasons, the termination shall become effective on the date as specified in the notice of termination sent to the Commissioning Agent. The Commissioning Agent shall be entitled to receive just and equitable compensation for the work provided pursuant to the contract prior to the effective date of cancellation.

#### No Obligation Contract:

The County reserves the right to accept or reject any or all proposal submissions at its sole discretion without penalty and to not issue a contract as a result of this RFQ. The County also has the right to waive any formal defects in submissions when deemed in the best interest of the County. Further, the County reserves the right to negotiate with any respondent concerning matters which the County determines require clarification or changes not in conformity with the specific requirements set forth herein.

TFM # 20388 Project # 2020-09-25-01 County: Hamblen

Dear Dan Mace,

The construction documents submitted to our office for the above referenced project have been reviewed for compliance with the minimum standards for fire prevention, fire protection, and building construction safety of the *Rules of Tennessee Department of Commerce and Insurance, Division of Fire Prevention, Chapter 0780-02-02, Codes and Standards*.

This is a public building. Therefore, it is subject to Tenn. Code Ann. § 68-102-201, et seq., the Tennessee Public Building Accessibility Act. It has been reviewed for compliance with the 2010 ADA Standards for Accessible Design. It has not been reviewed for compliance with the Americans with Disabilities Act.

Plans are approved with the following stipulation(s)

### **Stipulation 1:**

Complete sprinkler shop drawings with calculations and manufacturer cut sheets showing listing of fire protection systems must be submitted by a Tennessee registered sprinkler system contractor for review and approval prior to installation in accordance with Rule 0780-2-7-.09. The sprinkler shop drawings, calculations, & manufacture's cut sheet package must be reviewed and approved by the fire protection engineer of record (processed with the engineers shop drawing review stamp) prior to the submittal to the State Fire Marshal's Office. All piping from the *point of service* including underground used for sprinkler or standpipe must be installed by a Tennessee registered sprinkler contractor. Rule 0780-2-.08

### **Stipulation 2:**

New buildings shall have approved radio coverage for emergency responders within the building based upon the existing coverage levels of the public safety communication systems of the

Fire Prevention/State Fire Marshal's Office • Codes Enforcement Section • 500 James Robertson Pkwy • 10<sup>th</sup> Floor Davy Crockett Tower • Nashville, TN 37243-1162 • Tel: 615-741-7190 • Fax: 615-253-3267 version 10.5.2018

jurisdiction at the exterior of the building. Emergency responder radio coverage must be verified in the field prior to the issuance of a CO. The test should be performed by the local fire department after interior and exterior walls and the roof are constructed.

Note that stipulations must be satisfied by sealed construction documents before such work is performed. A Certificate of Occupancy (CO) will not be issued if stipulations are not satisfied. Rule 0780-02-03-.10.

If this is a "phased construction" project, construction may not proceed past the approved stage. Rule 0780-02-03-.02.

No approval of plans, or failure to review, plans, and specifications by the Division shall relieve the owner, developer, contractor, or designing architect or engineer of their respective responsibilities for compliance with applicable codes respecting fire prevention, fire protection, and building construction. Rule *0780-02-03-.05*.

Approved plans are available electronically at <a href="https://apps.tn.gov/tnsfmo/">https://apps.tn.gov/tnsfmo/</a>. They must be printed with all markups and stamps and placed at the project site prior to construction. They shall be available to the State Fire Marshal's Office inspector and retained until a CO has been issued by the Division. Failure to have the plans at the site and available to the inspector may be grounds for a Stop Work Order to be issued. Rule 0780-02-03-.05.

All subsequent construction document revisions that impact the approved plan's fire prevention, fire protection, or building construction safety must be submitted to this office for review and approval. Rule 0780-02-03-.02.

New buildings shall have approved radio coverage for emergency responders within the building based upon the existing coverage levels of the public safety communication systems of the jurisdiction at the exterior of the building. Emergency responder radio coverage must be verified in the field prior to the issuance of a CO. The test should be performed by the local fire department after interior and exterior walls and the roof are constructed.

The project's contractor must contact the Tennessee State Fire Marshal's Office inspector prior to construction to ensure that the proper inspections are performed. A CO will be issued after work is completed and all inspections are performed and satisfied. The building must have a CO before it may be occupied. Rule 0780-02-03-.10.

Sincerely,

James E. Snider, Plans Examiner II

Mayor Brittain:

I am requesting an additional employee for the Assessor of Property Office. Currently, this office is running one employee short per Tennessee Code Annotated 67-1-506. This employee will be cross trained to perform the duties of sales coordinator, personal property, field appraiser and new property coordinator. Since 2018, this office parcel count has increased 1,300+ parcels and over 2,000+ living units due to apartments, duplexes and homes. Also, additional burden is the Department of Property Assessments requiring our office to tax each individual lots in trailer parks. This position will be fully utilized in the present and also allows for smooth transitions in the future.

I would appreciate your support and cooperation in this request.

Best Regards,

Keith Elv

Assessor of Property

Hamblen County

### **Sales Coordinator**

### Nature of Work

This is very responsible administrative work involving the coordination of all aspects and functions for the Hamblen County Property Assessor's office. Activities associated with the job include responsibility for entering sales data and owner data into the IMPACT computer system, performing property splits, maintaining sales data and maintaining the ownership file. Additional activities include general office administration responsibilities and providing assistance to taxpayers, accountants, realtors, attorneys, etc. regarding tax assessments, ownership, deed references, appraised values, etc. and assisting with the coordination of required reappraisals. Job related duties require thorough knowledge of state and local taxation and property assessment practices, strong organizational, interpersonal and decision making skills, ability to meet established deadlines, reporting requirements and dedicated attention to detail. Job performance is evaluated by the Property Assessor through review of accuracy and thoroughness of all job related information, knowledge of property appraisal and assessment regulations and practices, organizational, interpersonal and decision making skills, ability to effectively supervise and direct the activities of staff and meet established deadlines. Work related duties are also subject to quarterly audit from the State Division of Property Assessments to determine accuracy, adherence to state and county policies, and compliance with the state mandated audit program.

### Illustrative Examples of Work

- -Reviews for thoroughness and accuracy all property splits and land development supplied by mappers and surveyors, makes adjustments when necessary, and enters the changes into the computer, creating new parcels as required.
- -Computes prorated values on demolished or damaged parcels and parcels having buildings or other improvements completed from January 1 through September 1 of the tax year, enters these values into the computer, and notifies the appropriate county and/or city offices of these changes as necessary.
- -Reviews property transfers for changes in ownership of greenbelt parcels and mails an Application for Greenbelt Assessment to the new owners.
- -Maintains of duplicate file of greenbelt applications currently on file in the Register of Deeds office.
- -Computes rollbacks on parcels that fail to comply with the greenbelt criteria due to insufficient acreage or non-qualifying usage and notifies the appropriate county and/or city offices of these changes.
- -Maintains a deletion list for all parcels due to deleted from the future tax year and deletes the parcel from the system once the state rolls over the future year to the current year.
- -Reviews all notices returned by the Post Office due to incorrect addresses and makes any changes noted.
- -Assists with coordination and oversight of required reappraisals and Board of Equalization

#30,500

activities in accordance with established schedules.

- -Assists taxpayers, accountants, attorneys, realtors, surveyors, etc. in obtaining information concerning property location, ownership, deed references and appraised values for both real and personal property.
- -Fills out requisitions to order office supplies.
- -Performs related duties as required.

### Necessary Requirements of Work

Graduation from an accredited four year high school (Associate Degree preferred) supplemented with additional course work in accounting, business administration, bookkeeping, or related field; considerable experience working in county government preferably in tax assessment or accounting; ability to maintain detailed records and related information; strong organizational, interpersonal and decision making skills; experience working with the public and any equivalent combination of education and/or experience to provide the following knowledge, abilities, and skills:

Re:

Pay Plan Adjustments

Since 2005 Hamblen County has used a formal pay plan to manage compensation for employees of the various departments. Our consultant prepared an update in 2020 which we did not implement this fiscal year because we did not know how the COVID pandemic would affect our revenue collections.

County revenues have been strong this year while expenditures are well within the budgeted limits. Therefore, I am recommending that we update our pay plan to keep our salaries competitive with other public and private employers in the region. The update includes:

- A comprehensive update for employees of the sheriff's department and jail (\$71,979.63);
- Adjustments recommended by the pay plan revision for about 13 employees some of whom are being paid less than the minimum amount for their skill levels (\$17,659.19)
- A 2% Cost of Living Adjustment (COLA) for full-time employees (\$51,121.68)
- A \$250 payment for part-time employees (\$9,726)

The total cost of the update <u>including</u> payroll taxes and the employer part of retirement contribution for <u>this fiscal year</u> is approximately \$ 150,486.50.

General Fund \$ 128,270.00 Sanitation Department \$ 8,980.00

Highway Department \$ 13,236.50

Do not hesitate to call me with any questions.
