RE:

2023 Annual Inflation Adjustment of the Financial Assurance for *Hamblen County and City of Morristown Landfills*, Permit Number(s) *SNL320000152 Original, SNL320000152 Extension, and DML320000100 Entire Landfill*, as required by the Regulations of TDEC's Division of Solid Waste Management

To whom it may concern:

All county and municipal "Contracts of Obligation in Lieu of Performance Bonds" must be adjusted annually for inflation by no later than the anniversary date of the issuance of the contract.

Rule Chapters 0400-12-01-.06(8) and 0400-11-01-.03(3) state that the inflation adjustment may be made by recalculating the closure and/or post-closure cost estimate in current dollars or by using an inflation factor derived from the most recent Implicit Price Deflator for the Gross National Product published by the U. S. Bureau of Economic Analysis in its Survey of Current Business.

The staff of TDEC's Division of Financial Assurance, utilizing data published by the U. S. Bureau of Economic Analysis, has projected the inflation factor to be used for 2023 inflation adjustments as 7.30%. The amount of your financial assurance instrument(s) from the Year 2022 must be multiplied by 1.0730. The permitted facility and/or TDEC may reserve the right to adjust this figure later based upon revised data released by the U. S. Bureau of Economic Analysis during the year.

Effective immediately, any County or Municipal Contract of Obligation in Lieu of Performance Bond incurring an annual inflation adjustment shall not be processed by amendment until the cumulative amount of the adjustment(s) equals or exceeds TEN THOUSAND DOLLARS (\$10,000.00). This is a change from the previous threshold of Five Thousand Dollars (\$5,000.00). For example, if the inflation adjustment is \$4,000.00 in year one, \$5,000.00 in year two, and \$6,000.00 in year three, the amendment will be processed in year three when the total of adjustments exceeds \$10,000.00. We will continue to send your inflation adjustment figures annually for your records whether or not a contract amendment is required.

Please review the amount(s) for each permit listed below. If any changes or modifications to your permit(s) have occurred, please contact us as soon as you receive this letter. The due date(s) and projected amount(s) for the inflation adjustment(s) of your financial instrument(s) are as follows:

2023 Inflation Adjustment(s)

Facility Permit #:	Financial Instrument Type & #:	Financial Instrument Anniversary Due Date:	Present Amount of Financial Assurance On File:	Inflation Adjustment/ Increase Required:	Inflation Adjustment and Allowable Post-Closure Reduction:	Total Required Amount of Financial Assurance:

Please see the attached spreadsheets, which list in detail the amount of financial assurance required due to the **2023** annual inflation adjustment and/or post-closure reduction (if applicable) for your permit(s). The spreadsheets also list the current amount of financial assurance on file for each permit.

PLEASE NOTE

- (1) If you currently have a financial assurance instrument on file with TDEC that was issued by a Commercial Financial Institution, that institution may consider this letter as TDEC's authorization for it to change the amount of the financial instrument(s) to the amount(s) specified in this letter for the specific permit(s) as listed.
- (2) If you have been advised by the TDEC Field Office that the required post-closure activities at a permitted site listed herein have not been performed to the satisfaction of the TDEC Field Office Staff, do not reduce your financial assurance instrument until the TDEC Field Office has approved the performance of the required post-closure work.

If you have any questions, please send an e-mail to TDEC. Financial. Assurance@tn.gov, or call 615-532-0339. Please submit the inflation adjusted financial instrument(s) to the TDEC Division of Financial Assurance at the address listed on the letterhead as indicated above.

About the Cooperative H-GAC and the Cooperative Purchasing Program

The Houston-Galveston Area Council (H-GAC) is the largest of 24 Councils of Government (COG) in Texas, and is a political subdivision of the State of Texas. It has been serving local governments for more than 40 years.

H GAC's Cooperative Purchasing Program, known as HGACBuy, was established pursuant to Texas Interlocal Cooperation Act [Texas Local Government Code, Title 7, Chapter 791]. The Act allows local governments and certain non-profits to contract or agree under the terms of the Act to make purchases or provide purchasing services and other administrative functions appropriately established by another government entity. The Interlocal Contract (ILC) is the required legal document that establishes a link between the Member (local governments and certain non-profits) and HGACBuy, and gives the Member access to HGACBuy contracts.

HELPING GOVERNMENTS ACROSS THE COUNTRY BUY

H-GAC has established Interlocal Contracts with thousands of Members throughout Texas and across the United States.

HGACBuy contracts are established based on the requirements of [Texas Local Government Code, Chapter 252]. Products and services are contracted after having been subjected to either a competitive bid (IFB) or competitive proposal (RFP) process. Contracts are blanket type, usually for a term of two or three years. Use of HGACBuy for purchases by any Member is strictly at the discretion of that entity. Member issue their purchase orders and pay the HGACBuy Contractor directly.

How to Become a Member

To become a Member and participate in purchasing through HGACBuy, you must:

- Be a state agency, county, municipality, special district, or other political subdivision of a state, or a qualifying non-profit corporation (providing one or more governmental function or service)
- Possess legal authority to enter into the Contract.

The Member warrants that both requirements are fulfilled by execution of an interlocal Contract (ILC).

Types of Participating Members:

- Municipalities, Cities, Counties and State Agencies

Re:

New Tana 440DT Eco Shredder Purchase price \$899,999

Dear Mr. Brittain:

At its regular monthly board meeting held on November 17, 2023, the Hamblen County/Morristown Solid Waste Board (HCMSWB) approved the submission of a request to the Hamblen County Commission to purchase the equipment referenced above on behalf of the HCMSWB. Additionally, the approval included a request to the Hamblen County Commission to obtain financing on behalf of the HCMSWB to purchase this equipment.

To allow the HCMSWB an opportunity to evaluate and try out this equipment, it has been delivered to the landfill under a one-month lease effective October 30, 2023, that provides for the full lease payment of \$40,000 to be applied to the purchase price.

In summary, this equipment will allow the HCMSWB to shred tires for disposal in the landfill which will result in an annual savings of approximately \$175,000. Additionally, the shredder will allow brush and certain construction materials to be shredded prior to disposing these items in the Class III landfill thereby reducing the volume by approximately 40%. The life of the shredder is estimated at approximately 10,000 hours, and it is estimated to be used about 20 hours each week. The shredder will eliminate the need to replace the landfill's burner which will result in savings from the replacement cost and ongoing electricity required by the burner fan. The air quality will also be improved by not replacing the burner. As part of the evaluation process, the HCMSWB has considered other factors including ongoing maintenance, insurance costs, opportunity costs, financing costs, and additional equipment costs that may be incurred due to this anticipated purchase.

Board members were invited to attend a demonstration of the equipment on October 25, 2023, at the landfill, and the board has determined the purchase of this equipment to be feasible based on a review of the estimated costs and benefits of acquiring this equipment. Accordingly, the board has approved submitting this request to you to obtain financing and purchase this equipment on behalf of the HCMSWB.

Respectfully submitted,

Board Chair

- (c) As is provided above and in Section 8 hereof, the County Mayor shall sell the Note to the Bank as a term note (a "Term Note") with mandatory redemption requirements as determined by the County

Mayor and approved by the Bank and, if required, the State Director. The County shall redeem the Term Note on redemption dates in aggregate principal amounts determined by the County Mayor at a price of par plus accrued interest thereon to the date of redemption.

The City of Morristown

Office of the Mayor

November 17, 2023

Mr. Steve Borden
Director and Assistant Chief Engineer
Tennessee Department of Transportation
Region 1
7345 Region Lane
Knoxville, TN 37914

Dear Mr. Borden,

One of the areas identified as a high priority for improvements was the adjacent intersections of Martin Luther King Parkway and Sulphur Springs Road with State Route 160. The study suggested that these intersections could be improved by restricting left turning movements and construction of a J turn system. The importance of these locations is even greater because of the location of schools, including a new Lincoln Elementary under construction. The LAMTPO board agreed with us and passed a resolution identifying these intersections as high priority projects.

We understand that there is a possibility that construction of these improvements might be considered by TDOT and that the preliminary budget estimate for the project is \$1.7 million. To facilitate the construction of the project, we would pledge a 20% local match for this project with a cap of \$340,000 for the local contribution. The local agencies participating would include the following:

Agency	Amount	% of Total Pledged
City of Morristown	\$170,000	50%
Hamblen County	\$ 85,000	25%
Hamblen County Dept. of Education	\$ 85,000	25%

The cooperative spirit between TDOT and our community is very much appreciated, and we hope that this project is an area where we can continue to build upon that joint effort. Please let us know how we can help facilitate these much-needed improvements.

Sincerely,

Gary D. Chesney

Re:

Improvements to SR 160 Intersections

The construction of the new Lincoln Heights Elementary School on Martin Luther King Parkway has created some safety concerns regarding the intersections of State Route 160 with MLK Parkway and Sulphur Springs Road.

LAMTPO, our regional transportation planning organization, has recently completed a study of the SR 160 Corridor including the two intersections mentioned above. The study suggested solutions that eliminate left turns across traffic with the construction of "J" turns (see illustrations). The LAMTPO Board has identified these two intersections as priorities, and the City of Morristown has discussed them with the TDOT Region 1 leadership.

The estimated cost of the improvements is \$1.7 million. There is a possibility that TDOT could fund the project with a local match. Accompanying this memo is a proposal for the local match to be shared among Hamblen County, City of Morristown, and the Hamblen County School System. The money would not have to be available until next fiscal year.

I am recommending that Hamblen County join the partnership by committing \$85,000 toward the project. The suggested improvements will improve the safety of these two intersections significantly.

Do not hesitate to contact me with any questions.

DRAFT CONCEPT

November 17, 2023

Mr. Steve Borden
Director and Assistant Chief Engineer
Tennessee Department of Transportation
Region 1
7345 Region Lane
Knoxville, TN 37914

Dear Mr. Borden,

Highway 160 is an important corridor for our community. Working with the Lakeway Area Metropolitan Transportation Planning Organization (LAMTPO), we have just completed a study of the highway 160 corridor to identify areas where improvements might be made to address safety and functionality. The City of Morristown, Hamblen County, and the Hamblen County Department of Education joined together to provide the local match for this planning study.

One of the areas identified as a high priority for improvements was the adjacent intersections of Matrin Luther King Parkway and Sulphur Springs Road with State Route 160. The study suggested that these intersections could be improved by restricting left turning movements and construction of a J turn system. The importance of these locations is even greater because of the location of schools, including a new Lincoln Elementary under construction. The LAMTPO board agreed with us and passed a resolution identifying these intersections as high priority projects.

We understand that there is a possibility that construction of these improvements might be considered by TDOT and that the preliminary budget estimate for the project is \$1.7 million. To facilitate the construction of the project, we would pledge a 20% local match for this project with a cap of \$340,000 for the local contribution. The local agencies participating would include the following:

Agency	Amount	% of Total Pledged
City of Morristown	\$170,000	50%
Hamblen County	\$ 85,000	25%
Hamblen County Dept. of Education	\$ 85,000	25%

The cooperative spirit between TDOT and our community is very much appreciated, and we hope that this project is an area where we can continue to build upon that joint effort. Please let us know how we can help facilitate these much-needed improvements.

Sincerely,

Gary D. Chesney Mayor City of Morristown Bill Brittain Mayor Hamblen County Govt. Arnold W. Bunch, Jr.

SUPPORTING MORRISTOWN, HAMBLEN COUNTY, AND HAMBLEN COUNTY BOARD OF EDUCATION PRIORITY RANKING OF THE SR160 CORRIDOR STUDY PROJECTS WITIIN MORRISTOWN, HAMBLEN COUNTY, TENNESSEE

WHEREAS, the Lakeway Area Metropolitan Transportation Planning
Organization (LAMTPO) seeks to continually develop comprehensive plan elements
which serve as guidelines for the maintenance and improvement of community public
facilities and infrastructure, and

WHEREAS, the citizens within the LAMTPO study area are afforded a continuous process whereby the transportation network within the area is maintained in an efficient and orderly manner while plans for future growth in traffic volumes, recreational and land uses are considered, and

WHEREAS, the governing entities of LAMTPO desire to improve the safety, security, and aesthetics of its roadways, while promoting and/or establishing future economic development in East Tennessee; and

WHEREAS, LAMTPO, in conjunction with Hamblen County, the City of Morristown, and the Hamblen County Board of Education (HCBOE) had CDM Smith Associates to do a SR160 Corridor Study (2023); and

WHEREAS, the SR160 Corridor Study recommended several intersection improvements along the highway within Morristown and Hamblen County, with Martin Luther King (MLK) Jr Pkwy, Sulphur Springs Rd, and US Hwy 25E being the three (3) intersections that need the most attention, due to the number of crashes and fatalities that had occurred at these intersections; and

WHEREAS, without the intersection improvements, the safety, security, and level of service (LOS) of SR160 will deteriorate rapidly with the increase of residential, commercial, and industrial development along the corridor; and

WHEREAS, the governing entities of LAMTPO strongly desire to improve the safety, security, level of service (LOS), and maintain the free-flowing traffic movement of SR160 which will enhance future economic development within the LAMTPO metropolitan planning area (MPA); and

NOW, THEREFORE BE IT RESOLVED that the LAMTPO Executive Board does hereby support the SR160 Corridor Study project rankings as described in the letter dated August 1, 2023 to TDOT from the City of Morristown, Tennessee (attached).

Mr. Steve Borden
Director/Assistant Chief Engineer
Tennessee Department of Transportation
Region 1
7345 Region Lane
Knoxville, TN 37914

Dear Mr. Borden,

On behalf of the City of Morristown and its residents, we are writing to formally request that TDOT strongly consider a project to improve the intersection of Dr. Martin Luther King Boulevard and SR 160. This location has long been in need of improvements, and several factors are increasing the urgency for changes at this crucial intersection.

You are aware, the City of Morristown, in collaboration with Hamblen County and the Hamblen County Board of Education, has undertaken a corridor study of SR 160. This study is now in its final stages, with a report expected to be released in August. Based on the consulting engineer's preliminary presentations, it is apparent that the final report will highlight the intersection at Dr. Martin Luther King Boulevard as the top priority for improvement.

Considering the findings of the corridor study and our previous efforts to address concerns at the MLK intersection, we believe that any improvements should encompass the intersection at Sulphur Springs as well. Given the topography and road design, it is crucial to consider both intersections together as one comprehensive improvement. It is likely that implementing a J-turn system that includes both MLK and Sulphur Springs will be the most viable option.

The urgency for action has intensified with the construction of the new Lincoln Elementary School on MLK, which is already underway. We anticipate a significant increase in pressure for better safety and improved traffic flow upon the school's completion in early 2025. While we understand that projects of this scale require time to navigate through the planning and approval process, the impending changes in traffic patterns demand extraordinary effort to address them promptly. Hence, we earnestly request that preliminary planning for improvements at both MLK and Sulphur Springs intersections with 160 be initiated prior to issuance of the corridor study if possible. This will shorten the time frame for implementation.

August 1, 2023 Mr. Steve Borden TDOT Region 1 Pg 2

Additionally, the corridor study report is likely to highlight the intersection at 25E (SR 32) and 160 as a high-priority need, warranting the use of traffic signals. Although we aspire for the 160 corridor to function as a free-flowing east/west connector, the case for signalization at 25E is compelling. We recognize the complexity of this intersection, necessitating significant planning efforts to implement improvements. Nevertheless, we fully support any initiatives that aim to enhance safety and functionality at this location.

We would like to express our sincere appreciation for the cooperative relationship we have cultivated with Region 1. This request is made with that positive relationship in mind, and we acknowledge the commitment of both TDOT and the City in addressing concerns along the 160 corridor over the years. Considering the importance of these improvements to our community, any measures that facilitate a swift and effective implementation process would be immensely appreciated.

Morristown is ready to pledge its support for improvements at MLK and 160, and we are prepared to assist in any way possible. The need for improvements at 25E and 160, which we expect to see in the corridor study report, is also of utmost importance. Please do not hesitate to reach out if there is anything we can do to help facilitate these much-needed enhancements.

Thank you for considering our formal request, and we eagerly await your response.
