MCM 4: Construction Site Stormwater Runoff Pollutant Control

For reporting construction activities in this section, count all activities e.g., projects, sites that were active during the reporting period. It is understood that activities will overlap multiple reporting years. For example: If a project plan is submitted and reviewed in reporting year 1, that plan review will go only on the report for that year. If that same project begins construction in reporting year 2, it would be included in the year 2 report for active construction activity, but not the year 1 report. If a construction activity is terminated in the beginning of a reporting year before the first inspection for that reporting year is required, that activity may be left off the count.

Stormwater Management Program Evaluation

Stormwater Management Program Evaluation

In accordance with subpart 4.6.2. The permittee shall conduct an annual evaluation of the Stormwater Management Program to evaluate compliance with the terms and conditions of the permit, including the effectiveness of the BMPs, components, or controls of its stormwater management program, and the status of achieving the measurable requirements in the permit.

Summarize the results of the permittee's annual evaluation of the current Stormwater Management Program.

We are working to bring out MS4 into compliance with the permit.

Identify modifications or replacement of an ineffective activity/control measure/component/BMP.

Updating post-construction/permanent control measures. We have also updated all other regulations, including our BMP.

Summarize the assessment results, and any modifications and improvements scheduled to be implemented in the next reporting period to improve the program or remedy deficiencies or weaknesses

We are working to get a monitoring system in place as well as updating our post-construction regulations. We have also gotten funded for a full time position which will take effect in October.

Is MCM 1: Public Education and Outreach on Stormwater Impacts compliant with Permit Requirements?

Yes

Is MCM 2: Public Involvement/Participation compliant with Permit Requirements?

Yes

Is MCM 3: Illicit Discharge Detection and Elimination (IDDE) compliant with Permit Requirements?

Yes

Is MCM 4: Construction Site Stormwater Runoff Control compliant with Permit Requirements?

Yes

Is MCM 5: Post-Construction/Permanent Stormwater Management in New Development and Redevelopment compliant with Permit Requirements?

No

Please Explain

Updating them and waiting for the engineer to get with us to go over the needed changes.

Is MCM 6: Pollution Prevention/Good Housekeeping compliant with Permit Requirements?

Yes

Is Monitoring Program (subpart 4.6.1.1) compliant with Permit Requirements?

No

Please Explain

No monitoring system is currently in place; again we are working with the county engineer to try and establish a system that works with our limited staff but also satisfies the requirements of the permit.

The following questions are from subpart 5.2 Annual Report Requirements.

Is the permittee compliant with the permit terms and conditions?

No

This determination should be made as to the status of the program at the end of the reporting period and the requirements applicable at that date. For example, the permanent stormwater program changes are not required to be implemented until 24 months after the effective date of the permit. So if the MS4 has not yet implemented those changes at the first annual report, they would still be in compliance, if their program meets the previously established requirements.

Please Explain

We do not have a monitoring system or updated post-construction regulations updated.

Is the permittee relying on another governmental entity to satisfy some of the permit obligations?

Yes

Please Explain

We rely on the county engineer to help with monitoring, and are in the process of redefining his role and ensuring we become a priority. We rely on the Morristown/Hamblen County GIS Dept. mapping system and any changes or issues must go through them.

Enter additional or clarifying information not elsewhere reported in this document.
