

Exercise Facilities

The “Tennessee Pledge” is a plan to help Tennesseans get back to work in a safe environment, restore their livelihoods and reboot our state’s economy.

Tennessee
Pledge

Exercise Facilities

Safeguarding Guidance

In addition to strict adherence to CDC guidelines, the State recommends gyms, fitness/exercise facilities, or substantially similar facilities and activities put into place an assortment of measures to protect consumers and employees, including:

Employee Protection

- **Allow employees to work from home as much as possible**
- **Screen all employees reporting to work for COVID-19 symptoms** with the following questions:
 - Have you been in close contact with a confirmed case of COVID-19?
 - Are you experiencing a cough, shortness of breath or sore throat?
 - Have you had a fever in the last 48 hours?
 - Have you had new loss of taste or smell?
 - Have you had vomiting or diarrhea in the last 24 hours?
- **Temperature screening employees:**
 - Employees should take and log temperature before shifts
 - Best practice: employers to take temperatures onsite with a no-touch thermometer each day upon arrival at work
 - Minimum: temperatures can be taken before arriving. Normal temperature should not exceed 100.4 degrees Fahrenheit
- Staff should **wear face coverings** (not N-95 or medical masks, which should be reserved for healthcare workers) and other personal protection items as recommended by the CDC
- **Provide training on personal protective equipment** based on CDC guidelines
- **Provide a sanitizing station** such as a wash basin with soap and/or bottle of hand sanitizer
- **Practice recommended social distancing** to the greatest extent possible—**“Further is safer”**
- **Stagger shifts, breaks and meals**, in compliance with wage and hour laws and regulations, to maintain social distancing. Consider reduced staffing requirements where possible
- **Prohibit congregating in break rooms or common areas** and limit capacity of such areas to allow for safe social distancing minimum of 6 feet whenever possible
- Employees should **increase hygiene practices**—wash hands more frequently, avoid touching face, practice good respiratory etiquette when coughing or sneezing

- All employees should **stay home if feeling ill**, report any symptoms of illness to supervisor and require notification of COVID-19 positive case in employee's household. Employees who are particularly vulnerable to COVID-19 according to the CDC (e.g., due to age or underlying conditions) are encouraged to stay home
- **Direct any employee who exhibits COVID-19 symptoms** (i.e., answers yes to any of the screening questions or who is running a fever) to leave the premises immediately and seek medical care and/or COVID-19 testing, per Tennessee Department of Health and [CDC guidelines](#). Employers should maintain the confidentiality of employee health information.
- **Plan for potential COVID-19 cases**, and work with local health department officials when needed (e.g., monitor and trace COVID-19 cases, deep clean facilities)
- Covered employers and employees should **be aware of the provisions of the federal Families First Coronavirus Response Act**, which allows for paid sick leave or expanded family and medical leave for specified reasons, such as for self-quarantining or seeking a medical diagnosis for COVID-19 symptoms
- **Update the Employee Illness Policy** to include the symptoms of "COVID-19" or create a COVID-19 specific policy. All staff should sign the policy, and the policy should be posted for confirmation.
- **Post extensive signage on health policies**, including the following documents, in the workplace to help educate building occupants on COVID-19 best practices:
 - [CDC guidance to stop the spread of germs](#)
 - [CDC guidance on COVID-19 symptoms](#)

Consumer Protection

- **Screen customers for illness** upon entry to the gym:
 - Best practice: Temperature checks for every customer. Persons with temperatures above 100.4 degrees Fahrenheit should not be permitted on premise
 - Minimum: Question customers regarding COVID-19 symptoms
 - Have you been in close contact with a confirmed case of COVID-19?
 - Are you experiencing a cough, shortness of breath, or sore throat?
 - Have you had a fever in the last 48 hours?
- **Keep doors and windows open** where possible to improve ventilation
- **Post signs encouraging social distancing** (visible to customers)
- **Require that customers wash or sanitize their hands** upon entering and leaving the facility
- **Require customers to clean equipment** they come in contact with using disinfecting wipes before and after each use

- Encourage customers to **use only one piece of equipment at a time** (i.e., no circuits or “super setting”) so that machines are cleaned after use
- **Consider limiting workout length** to avoid unnecessary exposure, decrease congestion, and allow for additional sanitization
- **Recommend that persons more vulnerable or at-risk** for COVID-19 as identified by the [CDC](#)—including those who are over the age of 65 or those who have chronic medical conditions—take extra precaution or refrain from use of the facility during Phase 1 of re-opening

Business Process Adaptations

- **Restrict facility access to staffed hours only** (i.e., any unmanned facilities must be manned) and **limit facility occupancy to 50 percent of capacity** as dictated by fire code (as such capacity is adjusted in consideration of closed areas of the facility pursuant to these guidelines)
- **Mitigate exposure in the workplace** by implementing social distancing guidelines and modify scheduling
- Staff to conduct regular (i.e., every 2 hours) **disinfecting of high-touch surfaces**, equipment and common areas of the facility using disinfectant cleaning supplies according to [CDC guidelines](#)
- **Close showers, locker rooms, and lockers until further notice.** Ask customers to instead use small gym bags to store personal belongings; remind customers to appropriately monitor or secure such personal belongs or provide a secure area monitored by staff
- **Close all swimming pools, hot tubs, saunas** and other recreational water or spa facilities
- **Close all basketball courts, racquetball courts, and other places** where formal and informal group or team sports may occur
- Any **youth or adult team leagues or sports should remain closed**
- **Only allow group fitness classes if classes can be completed in accordance with social distancing recommendations** (including but not limited to: less than 50% capacity and with more than 6 feet of distance maintained between participants at all times; no shared equipment during the class; sufficiently adjusted class schedules to allow for deep cleaning between classes; martial arts and other contact activities should be completed without any person-to-person contact)
- **Encourage all employees and customers to wear PPE where applicable**, and recommend that customers wear a face covering (not N-95 or medical masks, which should be reserved for healthcare workers)
- **Adjust equipment layout and close or restrict access to equipment** to maintain at least six feet of distance between equipment

Tennessee *Pledge*

- **Temporarily close water fountains, common areas, break rooms, check-in counters, where customers or employees may congregate.** Encourage users to provide their own water
- **No self-service options** (coffee bars, smoothie stations and other forms of communal food in facilities). Food retail should follow restaurant guidelines.
- **Ensure that staffing of facilities is sufficient** to enable enhanced sanitization and cleaning measures
